

ABHISHEK KUMAR MANDAL

QA Software Testing Engineer | Manual & Automation Testing | Penetration Testing

+91 8340331293 | abhishekmandal669@gmail.com | India | linkedin.com/in/abhishek-mandal-a9b714214

PROFESSIONAL SUMMARY

Detail-oriented QA Software Testing Engineer with 8 months of hands-on internship experience followed by full-time experience in manual testing, automation testing, and basic penetration testing across web and Windows desktop applications. Proficient in executing test cases for desktop clients, including installation validation, Windows Registry checks, and Event Viewer log analysis. Working knowledge of Selenium with Java for test automation and OWASP Top 10 concepts with Burp Suite for basic security and vulnerability testing. Strong understanding of STLC and the bug life cycle, with a focus on cross-platform compatibility (Windows 10/11 and native OS integrations).

CORE SKILLS

Manual Testing, Automation Testing, Functional Testing, Regression Testing, Smoke & Sanity Testing, Test Case Design & Execution, Defect Tracking, Bug Life Cycle, STLC, SDLC, API Testing, Windows Desktop Application Testing, Windows Registry Validation, Event Viewer Log Analysis, Cross-Platform Testing, JIRA, Postman, SQL, Penetration Testing, OWASP Top 10, Burp Suite, Vulnerability Assessment

TECHNICAL SKILLS

Core Testing: Manual Testing, Functional Testing, Regression Testing, Smoke & Sanity Testing, Test Case Design & Execution

Automation Testing: Selenium with Java, TestNG, Automation Script Development, Smoke Test Automation for Web Login Portals

Penetration Testing: OWASP Top 10, Burp Suite, Basic Vulnerability Scanning, Security Testing Fundamentals

Windows Ecosystem: Windows Registry Validation, Event Viewer Logs, Shell Extensions & Context Menus, Installation/Uninstallation Testing, Windows 10/11 UI Compatibility (Snap Layouts, System Tray Behavior)

Tools & Technologies: JIRA (Defect Tracking), Postman (API Testing), MS Excel, Google Drive

Database: SQL (Basic Data Validation)

CERTIFICATIONS

- Automation Testing — GeeksforGeeks (GfG)
- Cybersecurity — Tutedude (In Progress)

PROFESSIONAL EXPERIENCE

QA Software Testing Engineer (Full-Time)

Aug 2026 - Present

Oriental Outsourcing Consultant Private Limited | India

- Carried out end-to-end manual and automation testing on 15+ web and Windows desktop application builds to validate functionality, usability, and native OS stability.
- Developed and implemented automation test scripts using Selenium with Java and TestNG for smoke testing of primary web login portals, reducing repetitive manual regression effort by approximately 30%.
- Tested 10+ desktop installer packages to ensure clean installation, proper registry entries generation, and flawless uninstallation cleanups.
- Analyzed Windows Event Viewer logs and Task Manager metrics across 20+ troubleshooting sessions to trace background process errors and application freezes.
- Conducted cross-version UI testing targeting Windows 11 updates, validating system tray notifications, taskbar behaviors, and shell extension menu context hooks across 5+ builds.
- Ran 50+ structured functional, regression, smoke, and sanity test cases per release cycle, documenting and tracking 80+ defects accurately using JIRA.
- Handled basic API testing on 20+ endpoints using Postman, utilized SQL queries for backend data validation, and applied OWASP Top 10 concepts with Burp Suite for basic vulnerability and penetration testing checks.
- Collaborated closely with developers to reproduce 40+ complex bugs, verify hotfixes, and optimize application performance.

QA Software Testing Intern

Dec 2025 - Jul 2026 (8 Months)

Oriental Outsourcing Consultant Private Limited | India

- Assisted in manual testing of 10+ web and Windows desktop application builds, learning STLC and bug life cycle processes under senior QA guidance.
- Gained hands-on exposure to test case design, execution, and defect logging in JIRA, contributing to 30+ test cases across functional and regression test cycles.
- Learned automation testing fundamentals with Selenium and Java, and TestNG, supporting the transition into automation test scripting.
- Introduced to basic penetration testing concepts, including OWASP Top 10 vulnerabilities and Burp Suite, while assisting in preliminary security checks.
- Supported installation/uninstallation testing and Windows Registry validation for 8+ desktop application builds.

PROJECTS

Justo Delivery — Logistics & Transportation Management Platform

Tech Stack: PHP 8.2+, Laravel 12+, Vue 3 with Inertia, Vite, RESTful Third-Party API (v1.1)

- Handled manual and functional testing of a logistics and transportation management platform covering quote generation, order creation, warehouse management, dispatch, and delivery workflows across 3 user roles, built on Laravel 12+ and Vue 3 (Inertia).
- Completed API testing on 15+ endpoints using Postman for the platform's RESTful third-party API (v1.1), validating secure API credential-based authentication and end-to-end shipment order creation and management.
- Conducted regression and smoke testing across backend (PHP/Laravel) and frontend (Vue 3/Vite) releases spanning 8+ deployment cycles to ensure stability during feature updates.
- Ran basic security and penetration testing checks on API credential handling and authentication flows using Burp Suite, referencing OWASP Top 10 guidelines to flag potential vulnerabilities.
- Logged and tracked 25+ defects related to order/dispatch workflow anomalies, API integration errors, and UI inconsistencies using JIRA, collaborating with developers on fixes.

EDUCATION

Bachelor of Technology (B.Tech) — CGPA: 8.5

Expected Graduation: 2026

Swami Vivekanand Institute of Engineering and Technology

ADDITIONAL INFORMATION

- Strong analytical and troubleshooting skills with sharp attention to detail.
- Deep understanding of the Software Testing Life Cycle (STLC) and bug lifecycle management.
- Quick learner who adapts rapidly to new technical tools, OS configurations, and testing environments, including automation frameworks and basic penetration testing tools.
