

ABHISHEK KUMAR MANDAL

Associate Project Engineer - Cyber Security & SCADA Systems

+91 8340331293 | abhishekmandal669@gmail.com | India | linkedin.com/in/abhishek-mandal-a9b714214

PROFESSIONAL SUMMARY

Proactive and detail-oriented Cyber Security & Systems Engineer with core expertise in network security validation, intrusion detection, vulnerability assessment, and system hardening. Proven hands-on experience in evaluating network access controls, analyzing Event Viewer logs, Windows Registry validation, security patch management, and server/workstation backup & image handling. Knowledgeable in IEEE/IEC cyber security standards, basic C/C++ programming, and MS Office tools (Word, Excel). Experienced in cross-functional coordination and technical reporting to protect SCADA, HVDC, and critical industrial control infrastructure.

CORE SKILLS

SCADA & Cyber Security:	SCADA Network Security, HVDC Cyber Security, Secured Network Architecture, Intrusion Detection Systems (IDS/IPS), Vulnerability Audits, Physical Security Surveys.
Networking & Firewalls:	Networking Fundamentals (TCP/IP, Firewalls, Routers, Switches), Anti-Virus Controls, Backdoor Access Control, IEEE / IEC Security Standards (IEC 62443/IEEE 1686).
Systems & Maintenance:	Third-Party Security Patch Validation, Backup & Image Handling (Servers/Workstations), Windows Registry Validation, Event Viewer Log Analysis.
Tools & Programming:	Burp Suite, Postman, JIRA, SQL, Basic C/C++, Wireshark, Nmap, MS Office (Word, Excel).

PROFESSIONAL EXPERIENCE

QA Software Testing Engineer | Oriental Outsourcing Consultant Private Limited — India Aug 2026 – Present

- Designed and evaluated secured network architectures for system connections, enforcing strict controls against unauthorized backdoor access into critical networks.
- Monitored and validated third-party security patches, anti-virus software updates, and OS configurations to maintain system reliability across workstations and servers.
- Managed backup and image handling on servers and workstations, ensuring full operational recovery readiness for test and production environments.
- Analyzed Windows Event Viewer logs and resource metrics across 20+ troubleshooting sessions to trace network anomalies and system failures.
- Executed vulnerability assessment checks and penetration testing using Burp Suite and OWASP Top 10 guidelines across 20+ endpoints.
- Prepared detailed technical reports and audit logs using MS Word and MS Excel, tracking 80+ resolution tasks in JIRA.

QA Software Testing Engineer Intern | Oriental Outsourcing Consultant Private Limited — Dec 2025 – Jul 2026 (8 Months) India

- Assisted in conducting physical security surveys and network environment checks for connected client sites and remote workstations.
- Supported installation/uninstallation verification, Windows Registry validation, and patch updates for 8+ application builds.
- Maintained test lab environments with updated software, hardware, and OS security configurations for ongoing testing cycles.
- Learned and applied basic penetration testing concepts with Burp Suite and Postman API security checks.

PROJECTS

SCADA & Logistics Platform Security Assessment

Tech Stack: C/C++ Concepts, RESTful APIs, Burp Suite, SQL, Windows Registry, MS Excel

- Evaluated security parameters and network access workflows for a multi-role industrial logistics and dispatch management platform.
- Executed penetration testing using Burp Suite to identify unencrypted API endpoints, unauthorized access hooks, and potential security backdoors.
- Validated system database queries using SQL and verified image recovery and backup scripts to ensure data integrity during system failures.

- Documented 25+ security vulnerabilities and system anomalies in JIRA, recommending patch deployments and network hardening steps.

CERTIFICATIONS

- Cybersecurity Certification - Tutedude (In Progress)
- Automation & Testing Certification - GeeksforGeeks (GfG)

EDUCATION

Bachelor of Technology (B.Tech) — CGPA: 8.5

Expected Graduation: 2026

Swami Vivekanand Institute of Engineering and Technology

ADDITIONAL INFORMATION

- **Standards Awareness:** Basic knowledge of IEEE / IEC standards for telecommunications and sub-station automation security.
- **Documentation & Office Tools:** Advanced proficiency in MS Word and MS Excel for technical documentation, data logs, and project reporting.
- **Personal Competencies:** Self-starter caliber who owns tasks through to completion with strong attention to detail and excellent communication skills.
